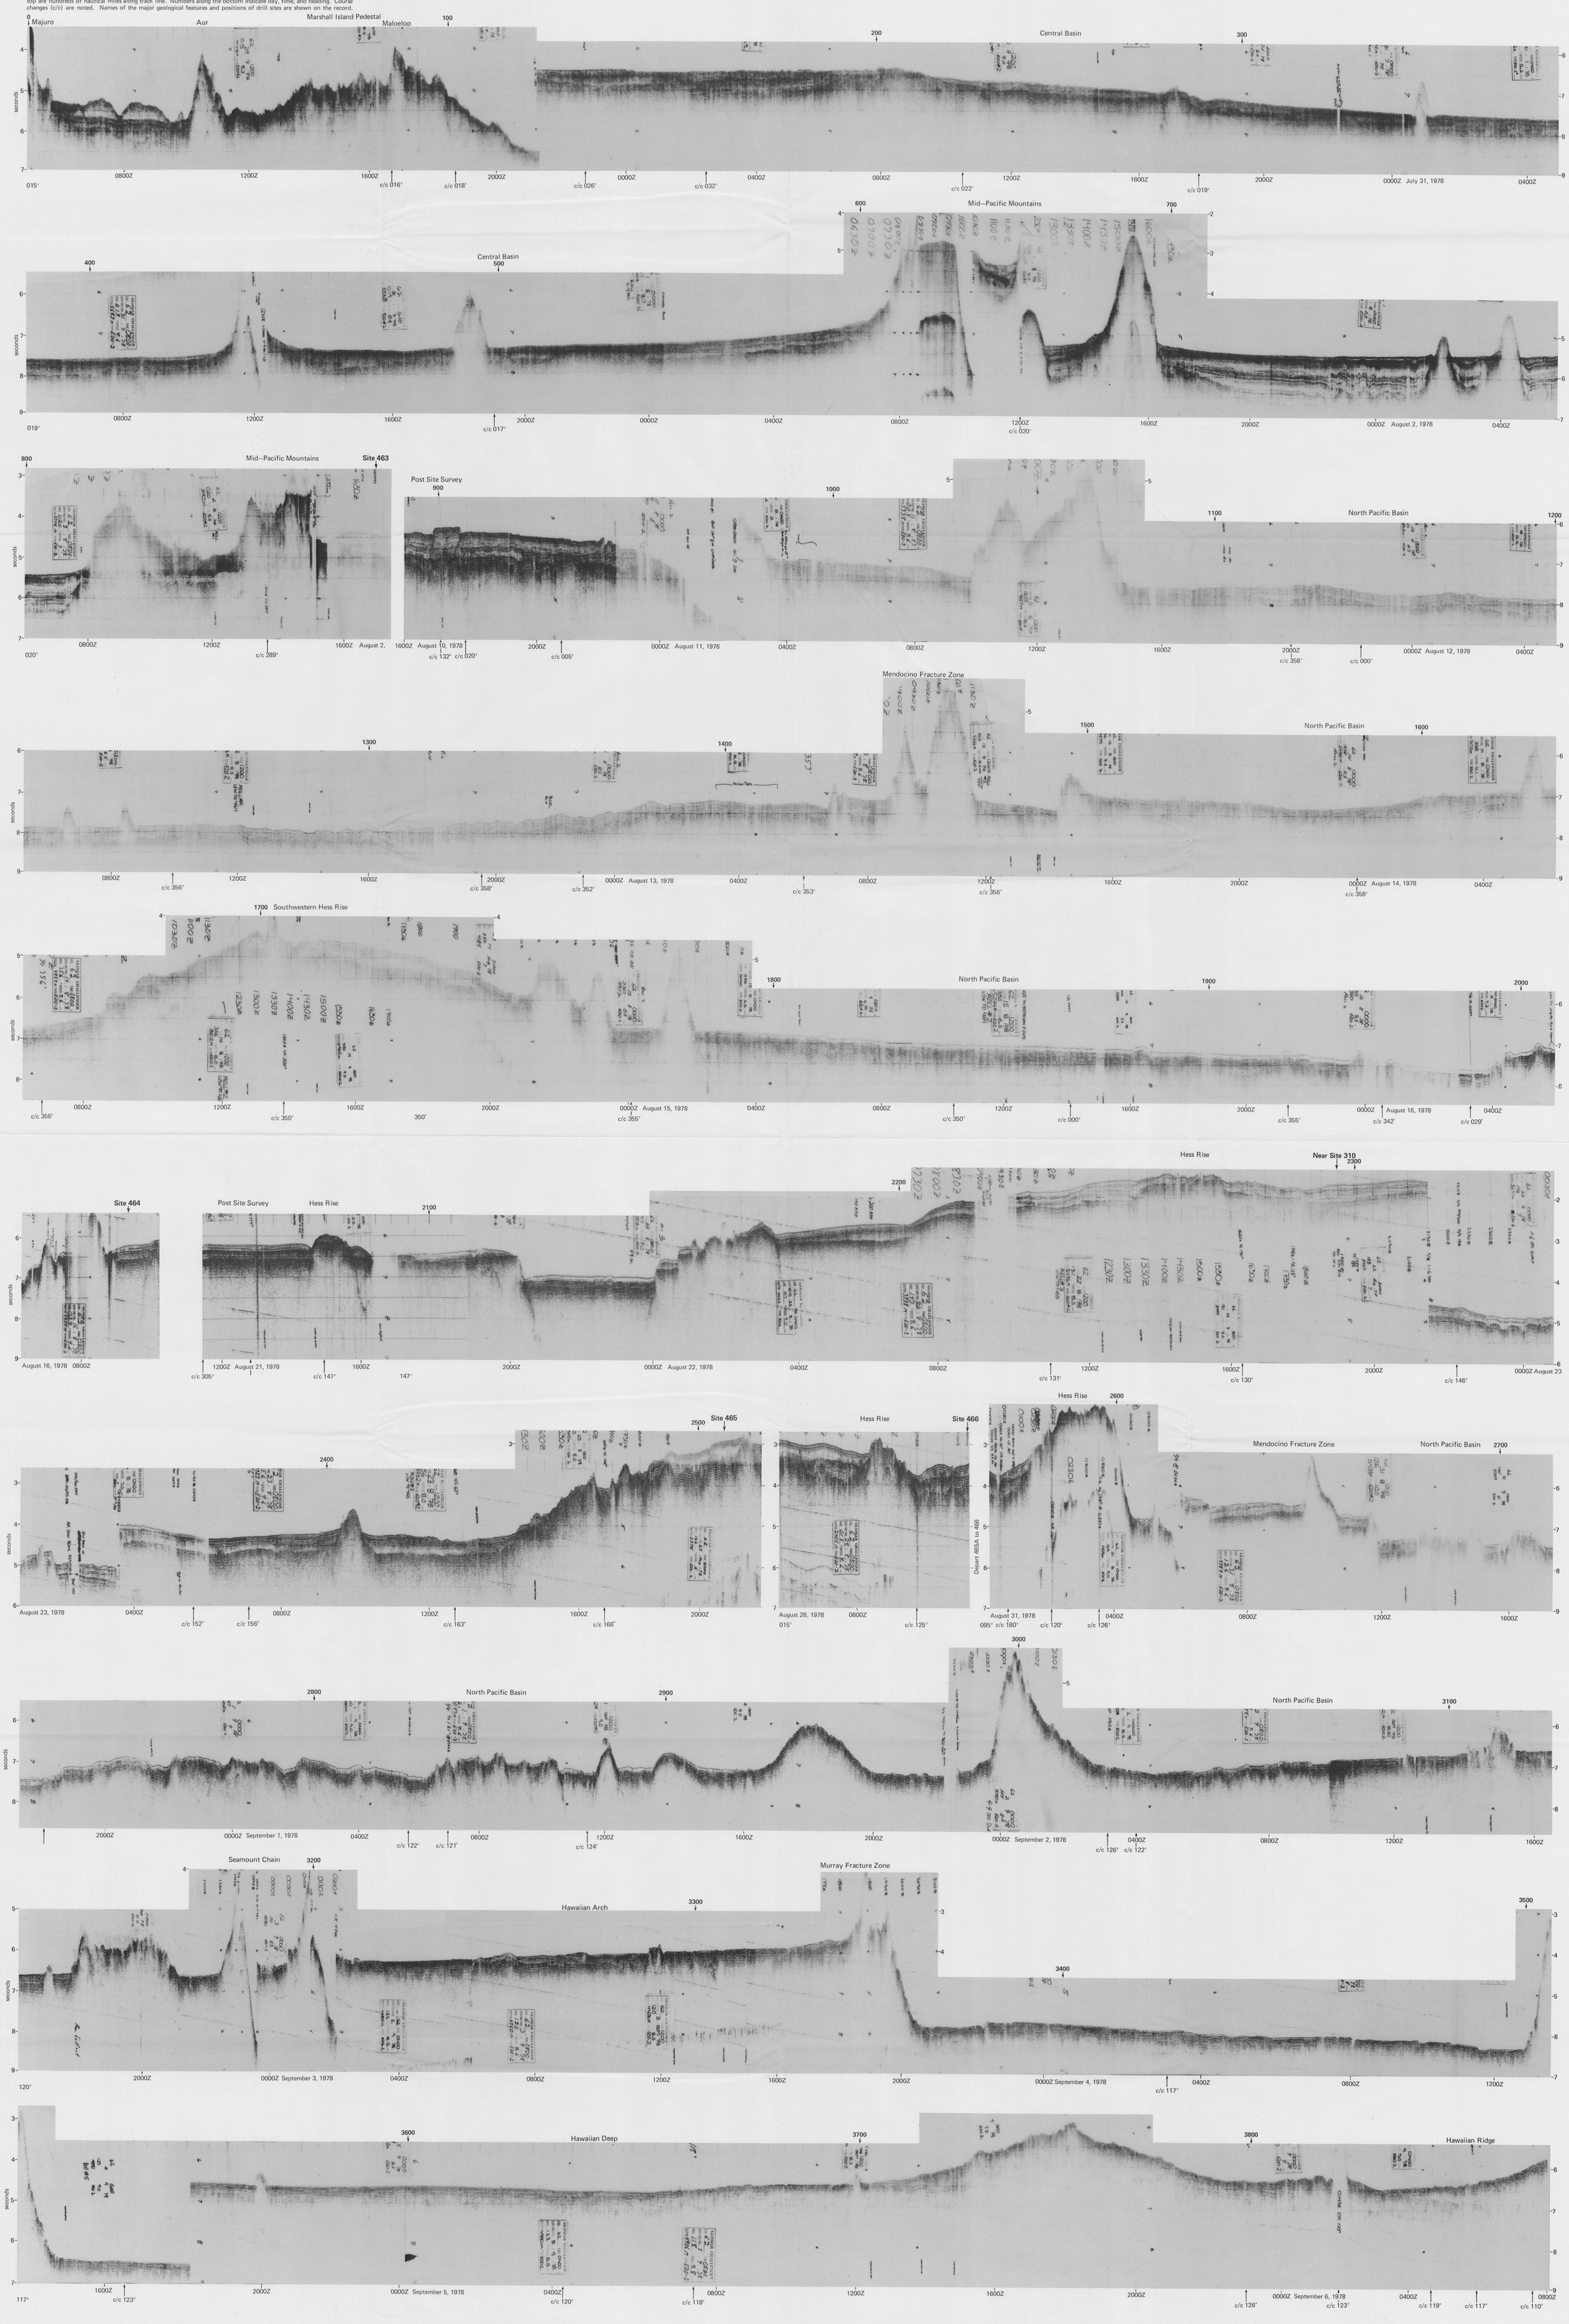
Volume 62: Chapter 60: Figure 9. Seismic – reflection profiles, Deep Sea Drilling Project, Leg 62, Majuro to Honolulu (Rea et al., this volume).


Records are from the 5-sec sweep recorder, horizontal lines are 0.5 sec of 2-way travel time apart. Numbers along the top are hundreds of nautical miles along track line. Numbers along the bottom indicate day, time, and heading. Course changes (c/c) are noted. Names of the major geological features and positions of drill sites are shown on the record.
