

Volume 95: Chapter 32: Figure 20. A. Uninterpreted seismic section, USGS multichannel Profile 25. B. Stratigraphic interpretation of USGS multichannel seismic Profile 25. Shaded sequences are for visual enhancement only. Sequences 7 and 6 can be traced along the *Conrad 21* profile to Site 603, where microfossils show that they are of middle Miocene age. Profile *Conrad 21* intersects Profile 25 at approximately shot point 6300.
